

*"With us in a clean environment"* - is the motto which we have chosen because we want to stress that environmental protection and accountability for the natural and social environment for us has special value. Compliance with laws, regulations, standards, setting new standards, and adherence to business ethics, and protection of social values to all areas is an important component of our business.

Constant improvement of production processes and using new materials in manufacturing our product range leads in meeting the highest environmental standards, thus giving new impetus to the market in connection with product quality, environmental and sustainable development.

Kemoplast is one of the companies in the system of Mapis Group, together with the Minerva d.d. Žalec, Kovinoplastika Piskar MP d.o.o. Menges, Mapis d.o.o. Menges and M.B. Minerva d.o.o. Lučani.

Together with the other company in the system of Mapis Group we offer a comprehensive range of piping systems, and also cover the largest market. We are proud to say that we inherited longtime tradition, rich experience and knowledge in the production and processing of plastics and we want to expand the market share and strengthen through the investment in quality products and services, modernization, specialization and increasing product range and strengthen relationships with customers.

We are dedicated to the future, the new challenges and ideas that we create an opportunity for further growth and development. We are proud of the achievements of the past and motivated by the challenges of the future!
